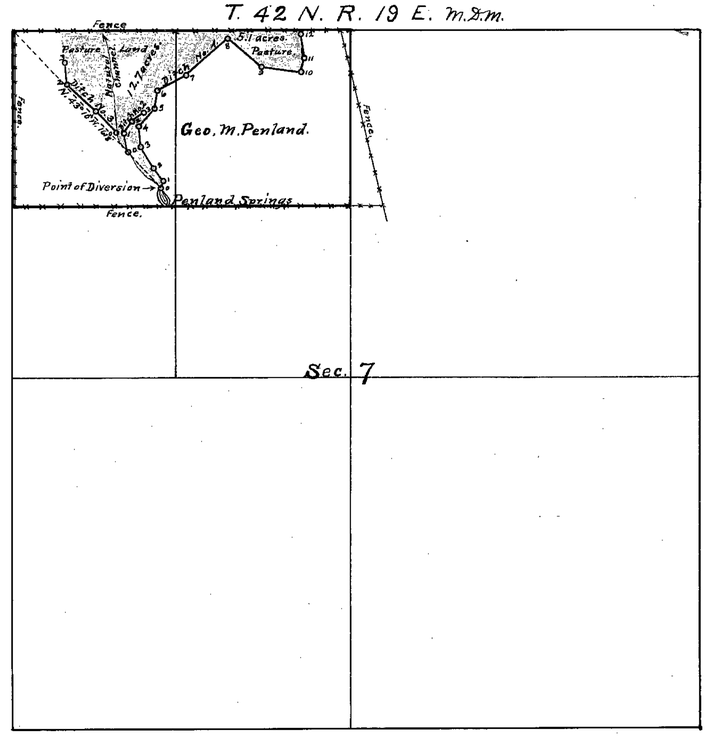
T. 42 N. R. 19 E. M.D.M.



Note: The ditches represented on this map are 18" wide at the top, 10" wide at the bottom and from 6" to 10" deep, and have a minimum grade of 3 feet fall in 1000 feet.

On July 17. 1923. Penland Springs were flowing about, but not more than, 1/12 of a second foot of water, which was turned into ditches No. 1 and No. 2 and used to irrigate the native grass for pasture. None of the land under said ditches has been tilled. One acre, represented by the portion of the map colored yellow, has been plowed, but it is still used for pasture.

On July 12. 1920, the flow of water from said springs was approximately 0.5 of a second foot.

State of California, County of Modoc. } ss.

I, Geo. T. Cline, being first duly sworn, depose and say that the above map is a true and accurate plat of the lands irrigated by Geo. M. Penland, as taken from the field notes of a survey made by me, completed on the 17th day of July, 1923.

That the map and survey were made at the instance of Geo. M. Penland, owner of said lands, and that it truly represents the irrigated lands of said Geo. M. Penland

Geo. T. Cline
Surveyor

Subscribed and sworn to before me, this 23rd day of July, 1923.

C. M. Baker.
Notary Public in and for Modoc County, California.
