Serial No. 56007

# APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Date of filing in State Engineer's Office MAR 18 1991

Returned to applicant for correction

Corrected application filed Map filed MAY 23 1972 under 26626

The applicant Tad's Enterprises, Inc. c/o Neal Townsend

352 Village Square (Street and No. or P.O. Box No.) of Oridna (City or Town)

California 94563 (State and Zip Code No.) hereby makes application for permission to change the

Manner of Use (Point of diversion, manner of use, and/or place of use)

of water heretofore appropriated under Permit 30866 (Identify existing right by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

1. The source of water is Hot Artesian Well No. 1 (Name of stream, lake, underground spring or other source.)
2. The amount of water to be changed 2.0 c.f.s., 52.14 mga (Second feet, acre feet. One second foot equals 448.83 gallons per minute.)
3. The water to be used for Industrial and Domestic (See Remarks) (Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.)
4. The water heretofore permitted for Industrial and Domestic (Irrigation, power, mining, industrial, etc. If for stock state number and kind of animals.)
5. The water is to be diverted at the following point NW¼SW¼ Section 15, T.15 N., R.25 E., MDB&M, (Describe as being within a 40-acre subdivision of public survey and by course and distance to a section corner. If on unsurveyed land, it should be stated.) or at a point from which the NW corner of said Section 15 bears North 0°54'30" West, 3156.90 feet
6. The existing permitted point of diversion is located within no change (If point of diversion is not changed, do not answer.)
7. Proposed place of use portions of the NW¼SW¼ Section 15 and NE¼SE¼ Section 16, T.15 N., R.25 E., MDB&M (Describe by legal subdivisions. If for irrigation state number of acres to be irrigated.)
8. Existing place of use portions of the NW¼SW¼ Section 15 and NE¼SE¼ Section 16, T.15 N., R.25 E., MDB&M (Describe by legal subdivisions. If permit is for irrigation, state number of acres irrigated. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)
9. Use will be from January 1 (Month and Day) to December 31 (Month and Day) of each year.
10. Use was permitted from January 1 (Month and Day) to December 31 (Month and Day) of each year.
11. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) well, pump and motor (State manner in which water is to be diverted, i.e. diversion structure, ditches, pipes and flumes, or drilled well, etc.)
12. Estimated cost of works Works complete
13. Estimated time required to construct works Works complete

14. Estimated time required to complete the application of water to beneficial use Works complete

15. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

Please use map on file at the Division of Water Resources under Application 26626 to support this application. Initial use is planned to be for power generation purposes. Other uses in the future may include processes which utilize the geothermal resources or the beneficial reuse of water under this permit.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the manner of use of the waters of an underground source as heretofore granted under Permit 30866 is issued subject to the terms and conditions imposed in said Permit 30866 and with the understanding that no other rights on the source will be affected by the change proposed herein.

It is understood that the amount of geothermal fluid herein granted is only a temporary allowance and that the final right obtained under this permit will be dependent upon the amount actually placed to beneficial use. It is also understood that this right must allow for a reasonable decrease of fluid pressure and heat. The well shall be equipped and maintained to prevent any waste of the geothermal fluid. Accurate measurements must be kept of discharge of the production well to determine the total amount of fluid diverted and consumed for a beneficial use.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. A detailed log on the injection well and/or other analyses of the system used for returning the used geothermal fluids to the source must be submitted together with the Proof of Completion.

(CONTINUED ON PAGE 2)

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 2.0 cubic feet per second, but not to exceed 52.14 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before November 10, 1993

Proof of completion of work shall be filed before December 10, 1993

Application of water to beneficial use shall be made on or before November 10, 1994

Proof of the application of water to beneficial use shall be filed on or before December 10, 1994

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed DEC 10 1998

Proof of beneficial use filed DEC 10 1998

Cultural map filed

Certificate No. 15171 Issued MAR 30 1999

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E. State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 19th day of January, A.D. 19 93

State Engineer

(O)-1108 (Rev. 6-81)

(PERMIT TERMS CONTINUED)

An annual report for this well must be filed under this permit describing the amount of geothermal fluid diverted and consumed to a beneficial use for the calendar year. This report must detail the amount of fluid produced and injected. Any secondary uses of the geothermal fluid must be approved by this office through the permit process.

The State Engineer does not waive the right to make a determination of incidental fluid losses at any time and impose additional conditions thereto.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
