
CONSTRUCTED WORKS - Consist of a cut in earth 4' wide, 4' deep and 60' in length. Water is conveyed to 30' of 14" half round galvanized troughs, located west of the seep by 80' of iron 1" pipe. A small catch basin is constructed below the troughs to conserve the waste water

100 cattle are watered from this source.

STATE OF NEVADA,
COUNTY OF WHITE PINE } S.S.

I, C.R. Townsend, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me between the 10th and 12th days of July, 1928; that it truly and correctly represents the location and extent of the works used to divert water from Camel Seep No 1 in White Pine County, by Moorman & Williams for Stock watering; that the point of diversion, the location and size of diverting channel, or other conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by or connected with the said works, are fully and correctly designated thereon.

C.R. Townsend
STATE WATER RIGHT SURVEYOR.

Subscribed and sworn to before me this 8th day of March, 1928.

[illegible]
NOTARY PUBLIC IN AND FOR WHITE PINE COUNTY, NEVADA.
