The present well supplying the surrounding area is not gravel-packed and produces so much sand that it isn't good. It is very unsatisfactory. By drilling a new gravel-packed well it will be possible to supply the necessary water for the four houses at no cost to the residents. The applicant, C. E. Perry has a 1/12 interest in Well No. 478 which is not producing enough usable water. Upon granting of permit to drill this well, Mr. Perry will relinquish his interest in Well No. 478 which is not capable of supplying the present demand.

C. E. PERRY, Applicant.
