Dec 3, 1945

STATE OF NEVADA }
County of White Pine } SS.

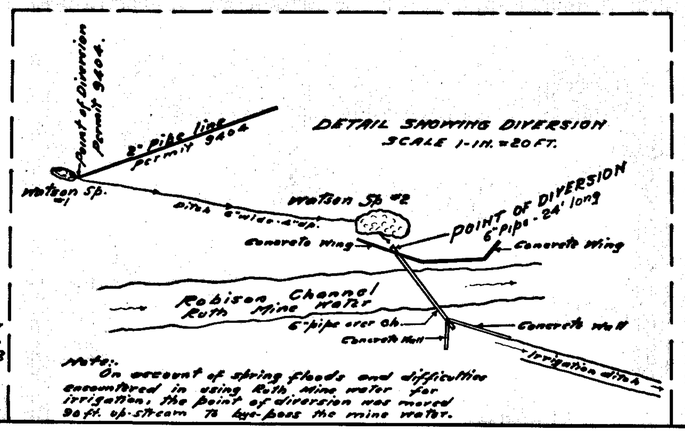
I, F.W. Millard, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scales from field notes of a survey made by me between the 26th and 28th days of October, 1945; that it truly and correctly represents the location and extent of the works used to divert water from WATSON SPRING in White Pine County by ELY GOLD MINING COMPANY for irrigation purposes under application No. 9492. That the point of diversion, the size of the diverting channel, the location and description of all measuring devices, the location and extent of the lands owned or controlled by the applicant upon which water applied for under application No. 9492 is used, together with the area and kind of culture in each 40-acre sub-division, and the location and names of all other works or streams which are crossed by or connected with the said works are fully and correctly designated thereon.

F.W. Millard
State Water Right Surveyor.

Subscribed and sworn to before me this 2nd day of November, 1945.

H. Mathias
Notary Public in and for White Pine County, Nevada.

My commission expires Jan 6, 1946



Note:
On account of spring floods and difficulties encountered in using Ruth Mine water for irrigation, the point of diversion was moved 90 ft. up-stream to bye-pass the mine water.
