APPROVAL **OF STATE ENGINEER**

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the manner of use of a portion of the waters of an underground source as heretofore granted under Permit 60525 is issued subject to the terms and conditions imposed in said Permit 60525 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 55276, 60525 and 62039 shall not exceed 6.48 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The place of use of revocable Permit 55276 is 4 lots described as assesors parcel numbers 125-31-804, 125-31-003, 125-31-004, 125-31-005, and 125-31-006. Permit 62039 will add one lot by a parcel split of one of the aforementioned parcels.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.00135 cubic feet per second **, but not to exceed 1.0 acre-feet annually.**
