APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of Thomas Creek as heretofore granted under Claim 719, Truckee River Final Decree, is issued subject to the terms and conditions imposed in said decree and with the understanding that no other rights on the source will be affected by the change proposed herein. A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued subject to the notification to Truckee-Carson Irrigation District by the permittee of any secondary applications filed under this primary permit. Truckee-Carson Irrigation District will have thirty (30) days from the receipt of such notice to file protests with the State Engineer.

Water measuring devices and totalizing meters must be installed and accurate records must be kept of the water diverted and placed into storage.

A monthly report of the water diverted and placed into storage must be submitted to the State Engineer and Federal Water Master on a monthly basis within 15 days after the end of each month.

(Continued on Page 2)

This permit is issued subject to the regulation of the irrigation season as established by the Federal Water Master.

A substantial measuring device must be installed and accurate records must be kept of the water flowing in Thomas Creek prior to it's commingling with other drainages.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.313 cubic feet per second, but not to exceed 61.83 acre-feet as decreed.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **June 16, 1999**

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: **N/A**

Map in support of proof of beneficial use shall be filed on or before: **N/A**
