APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This secondary permit is issued for the use of the effluent from the primary air conditioning use granted under Permit 19216, Certificate 6056.

The permit granted herein carries with it no provision or guarantee for the continuous use or availability of the water since the source is effluent derived under Permit 19216, Certificate 6056.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The method of delivery of the effluent shall be approved by the State Engineer prior to the diversion of any water.

A suitable measuring device must be installed and maintained to facilitate the measurement and control of water. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.34 cubic feet per second, but not to exceed 120 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before July 2, 1993

Proof of completion of work shall be filed before August 2, 1993

Application of water to beneficial use shall be filed on or before July 2, 1995

Proof of the application of water to beneficial use shall be filed on or before August 2, 1995

Map in support of proof of beneficial use shall be filed on or before August 2, 1995

Completion of work filed AUG 26 1993
