STATE OF NEVADA
COUNTY OF NYE ..... } SS

I, T. M. Cahill, being first duly sworn depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me between the 5 day of November and the 9 day of November 1966, and field checked on the 9 day of November 1966, that it truly and correctly represents the location and extent of the works used to divert water from underground source in Lander County by Samuel Bernard Cohen for Irrigation & Domestic purposes under permit Number 18948; That the point of diversion, the location, size and grades of the diverting channel, location and description of all measuring devices, the location and extent of lands owned or controlled by the applicant upon which water applied for under Permit No. 18948 is used, together with the area and kind of culture in each 40 acre subdivision, and the location and names of all other works or streams which are crossed by or connected with said works are fully and correctly designated thereon.

T. M. Cahill
STATE WATER RIGHT SURVEYOR

Subscribed and sworn to before me this 1 day of December 1966.

Marcella G. Flickner
NOTARY PUBLIC IN AND FOR NYE COUNTY, NEVADA.

MARCELLA G. FLICKNER

Nye County
My Commission Expires March 5, 1969

POINT OF DIVERSION: 16 inch diam. cased well located S 51°10'E a distance 60.15 ft. from the W. quarter corner of section 16. Well is 300 ft. deep. Western Land Roller Pump is powered by a Cummins 200 H.P. diesel engine. Delivers water to a holding pond near pump from which an irrigation ditch conveys water due South to near the SW corner of Sec. 16. Water is delivered to irrigated area thru furrows running West–East. Furrows are on 30 inch centers.

(NB) The Barley and Oats crop shown above was not visible as growing crops. The resident foreman, Mr. Lamb, stated on Nov. 7, 1965 that this 160 acres was seeded in the spring of 1965, and that a rather poor crop resulted. The land was subsequently plowed under and re-furrowed. This was the field condition again observed by T. M. Cahill on Nov. 9, 1966. The NE¼ SE¼ was plowed in the summer of 1966 and later furrowed and seeded in wheat. The evidence of wheat seeding was observed by T. M. Cahill in company with Mr. Albert Fuller, a business associate of Samuel Bernard Cohen. Date of this observation was Nov. 5, 1966.

Water measurements at well were made 9/22/64 by Mr. George K. Devn, P.O. Box 422, Battle Mountain, Nevada.

160 ACRES IRRIGATED BY and 40 ACRES SEEDED BY

SAMUEL BERNARD COHEN

Above five legal subdivisions owned by Samuel Bernard Cohen

SECTION	SUB-DIVISION	TOWN SHIP	RANGE	CULTIVATED ACREAGE	KIND OF CULTURE
16	NE¼ SE¼	25N	41E	40.0	Seeded wheat
16	NW¼ SE¼	25N	41E	40.0	Barley
16	NE¼ SW¼	25N	41E	40.0	Barley
16	NW¼ SW¼	25N	41E	40.0	Barley
16	SW¼ SW¼	25N	41E	40.0	Oats
