NO. 63267

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office JUL 22 1997

Returned to applicant for correction SEP 09 1997

Corrected application filed JUL 22 1997

Map filed MAY 11 1993 under 58821-T

****

The applicant **U. S. Department of Energy, Yucca Mountain Site Characterization Project Office,** hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

****

1. The source of the proposed appropriation is **Underground**

2. The amount of water applied for is **0.90 c.f.s. not to exceed 430.00 ac ft annually** second-feet

(a) If stored in reservoir give number of acre-feet

3. The water to be used for **Industrial**

4. If use is for:

(a) Irrigation, state number of acres to be irrigated

(b) Stockwater, state number and kinds of animals to be watered

(c) Other use (describe fully under No. 12. "Remarks") **Refer to Exhibit "B", attached**

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point **NW¼ NE¼ Section 14, T.13S., R.49E., M.D.B.&M., (unsurveyed) or at a point from which the SE corner of Section 36, T.13S., R.49E., M.D.B.&M (unsurveyed); bears S. 18° 59' 45" E., a distance of 22,050.00 feet**

6. Place of Use **See Exhibit "A", attached**

7. Use will begin about **January 1st** and end about **December 31st** of each year.

8. Description of proposed works **Drilled well with pump, motor and pipeline system.**

9. Estimated cost of works **$1,330,000.00**

10. Estimated time required to construct works **One Year**

11. Estimated time required to complete the application of water to beneficial use **Ten Years**

12. Remarks: **Please refer to Exhibit "B", attached**

DENIAL OF STATE ENGINEER

The State Engineer finds the protests of Citizens Alert and the Nevada Agency for Nuclear Projects to this application are hereby upheld on the grounds that the requested use threatens to prove detrimental to the public interest. No ruling is made as to the merits of the other protest claims.

DENIED - See Ruling On Remand #5307 dated 11/7/03.

Work must be prosecuted with reasonable diligence and be completed on or before: _____

Proof of completion of work shall be filed before: _____

Application of water to beneficial use shall be filed on or before: _____

Proof of the application of water to beneficial use shall be filed on or before: _____

Map in support of proof of beneficial use shall be filed on or before: _____

IN TESTIMONY WHEREOF, I, R. MICHAEL TURNIPSEED, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 2nd day of February, A.D. 2000

R. Michael Turnipseed P.E.
State Engineer

Completion of work filed _____

Proof of beneficial use filed _____

Cultural map filed _____

Certificate No. _____ Issued _____

EXHIBIT "B"

ITEM #12

This application to appropriate the waters of the State of Nevada is being filed by the Department of Energy in order to provide water for meeting the Department of Energy's responsibilities under the Nuclear Waste Policy Act. Said uses will include, but are not limited to, road construction, facility construction, drilling, dust suppression, tunnel & pad construction, testing, culinary, domestic and other related site uses.

Existing Permits 57373, 57374, 57375, 57376, 58827, 58828 and 58829 were issued for site characterization and aquifer characteristic studies as part of the overall site characterization for the Yucca Mountain Project. These permits (with the exception of Permit 57375) had a limited life and are scheduled to expire within a few years. Although no final determination has been made on whether or not the Repository will be located at Yucca Mountain, these applications are being filed in order to ensure priority of filing and establishment of a claim for the use of the water. Accordingly, under the provisions of NRS 533.370(2)(a), it is requested that, after this application becomes ready for action, that the State Engineer withhold final approval until the Department of Energy provides notification to proceed.

The total combined duty of this application to appropriate and its four companion applications to appropriate, along with Permit 57375, is not to exceed 430.00 acre-feet annually from any and all sources.
