I, James V. Olm, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 7th day of May, 1968; that it truly and correctly represents the location and extent of the works used to divert water from an underground source in Nye County, Nevada, by JOHN B. WILLIAMSON, for irrigation and domestic purposes under application No. 20411. That the point of diversion, the location and extent of lands owned or controlled by the applicant upon which water applied for under application No. 20411 is used, together with the area and kind of culture in this 40 Acre subdivision, and that there exist no other works or streams crossed by or connected with said works.
