I, John A. Skinner for domestic and irrigation purposes under Application No. 23289. That the point of diversion, the location, size of the diverting channel, the location and extent of land owned or controlled by the applicant upon which water applied for under Application No. 23289 is used, together with the area and kind of culture in each 40 acre subdivision, and the location and names of all other works or streams which are crossed by or connected with said works are fully and correctly designated thereon.
