R E Tilden, being duly sworn deposes and says that the above is a true and accurate plat of the lands irrigated by the Golconda Cattle Co, as taken from the field notes of a survey made by me about November and December 1910 and completed in that same year. That the map and survey were made at the instance of the Golconda Cattle Company owner of said lands, and that it truly represents the irrigated lands of said Golconda Cattle Company at the time of said survey in 1910; that more than probable the irrigated area has been increased since that date.

Note:- The lands I have shown Secs 7-18 & N½ of 17 is as near as can be determined from notes taken in 1910, as many more acres were expected to be plowed later. There was also much land cleared in SW¼ of SE¼ Sec 7 T39N-R47E but whether it was plowed afterward I am unable to say.
