3. This relinquishment of water rights is for the purpose of offsetting the water withdrawn from domestic wells to homes, or for the dedication of water to newly created lots located at the place described below and reflected on the attached map: *(Describe place where water will be used with quarter sections, section, township, range, M.D.B. &M. and assessor's parcel numbers)*

5. I understand that this relinquishment must be approved by the Nevada State Engineer in order for it to become effective.

6. I am aware that, under NRS 534.350, a county may dedicate and relinquish sufficient water rights to offset water withdrawals from domestic wells of new homes. Water rights so relinquished revert to the source of the water. Should these homes later be added to a public water system, the public water system is entitled to receive a credit in the same manner as the addition of any other customer to the public water system pursuant to NRS 534.350.

7. I understand this relinquishment shall become effective upon the date of approval by the State Engineer. The affiant may petition the State Engineer to void this relinquishment if the final subdivision or parcel map is not recorded within 18 months after this approval. If a petition to void this relinquishment is *not* submitted to the State Engineer within the 18 month period, the water remains permanently reverted to the source.

8. I understand once these water rights are relinquished by recordation of a final subdivision map in the office of the county recorder of the county wherein the domestic wells are to be located, as provided in NRS 278.380 (2001), or in the case of a final parcel map as provided in NRS 278.4725 (2003), the process cannot be reversed nor can I claim said right as a water right.

9. Within 30 days of approval of this relinquishment by the State Engineer, I shall record this Affidavit in the office of the county recorder of the county in which the final subdivision or parcel map is recorded. I shall also record this Affidavit in the office of the county recorder of the county in which the previous place of use was located, if it is not the same county.

10. I shall provide the State Engineer's Office with a copy of this recorded Affidavit within thirty (30) days of its recording with the county recorder.

Exhibit A

The water under Permit 72372 (2.24 acre-feet) was dedicated to Douglas County as a condition of approval on the Kirk and Gina Johnson parcel map.

The two new parcels are not in a position where they can be provided with water service and a relinquishment should have been required instead of a dedication of water rights.

Accordingly, Douglas County is filing an Affidavit of Withdrawal for Domestic Well Credit (Relinquishment) on the water under Permit 72372.

Additionally, the amount of water rights that were dedicated (1.12 acre-feet per parcel) is insufficient to meet the State requirements for a relinquishment (2.0 acre-feet per parcel).

The balance of the water (4.0 acre-feet - 2.24 acre-feet = 1.76 acre-feet) is being made up from water under Permit 64994.
