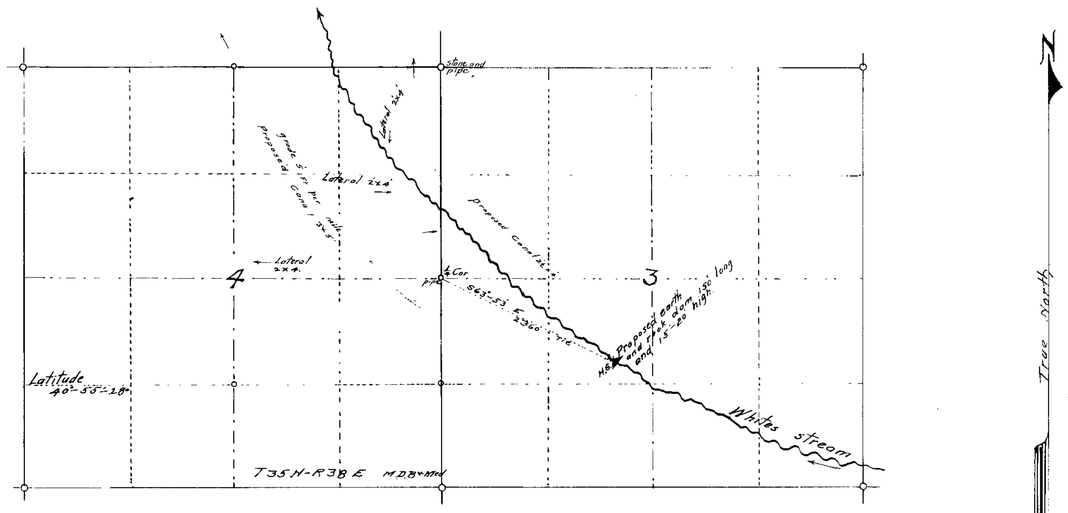
Certificate of Engineer.

State of Nevada }
County of Humboldt } ss.

I, R.E. Tilden of Winnemucca, Nevada, County of Humboldt, hereby certify that the above map is a true and accurate plot of the PROPOSED irrigation works, as taken from the field notes of a survey made by me on August 22-26 1911, at the instance of J.C. Tucker; that it represents the works proposed or described in Application No 1995, together with the location of streams and ditches in the immediate vicinity. The works as shown have only partially been built, but all surveys have been made for the carrying out of this proposed system. Only main ditches surveyed. Laterals sketched in:—

R.E. Tilden
Civil Engineer

Note
The 3x5 canal in Sec 4 after reaching the top of ridge would have to have drops in it unless there is a rock bottom. grade would be too steep.
This map applies to the NE¼ of Sec 4 = 160 ac. T 35 N - R 38 E, not to the entire tract of land as owned by the applicant.
R.E.T.



Water Application No. 1995 of J.C. Tucker
From
Whites Stream
Secs 3 + 4 T35N-R38E. M.D.B&M.
All main canals have been surveyed and the canal in Sec 4 partly dug.
No. of acres to be irrigated = 160 ac = NE¼ Sec 4.

Scale 1000 Ft = 1 inch
