Permit No. 73932

THE STATE OF NEVADA
PERMIT TO APPROPRIATE WATER

Name of applicant: DOUGLAS COUNTY

Source: UNDERGROUND

Basin: CARSON VALLEY

Manner of Use: QUASI-MUNICIPAL

Period of Use: January 1st to December 31st

Priority Date: 03/01/2006

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The well must be sealed with cement grout, concrete grout or neat cement from ground level to 100 feet.

The total combined duty of water under Permit 24524, Certificate 8688; Permits 29402, 49436, Certificate 14457; Permits 61929, 72268, 73931, 73932, 73933, 74048, 74072, 74073, 74074 and 74075 shall not exceed 273.91 acre-feet annually. Permits 73931, 73932 and 73933 are issued for additional diversion rate only.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.4 cubic feet per second.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:	**April 15, 2009**
Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:	**April 15, 2016**
Map in support of proof of beneficial use shall be filed on or before:	**N/A**

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 15th day of **April**, A.D. **2008**
