
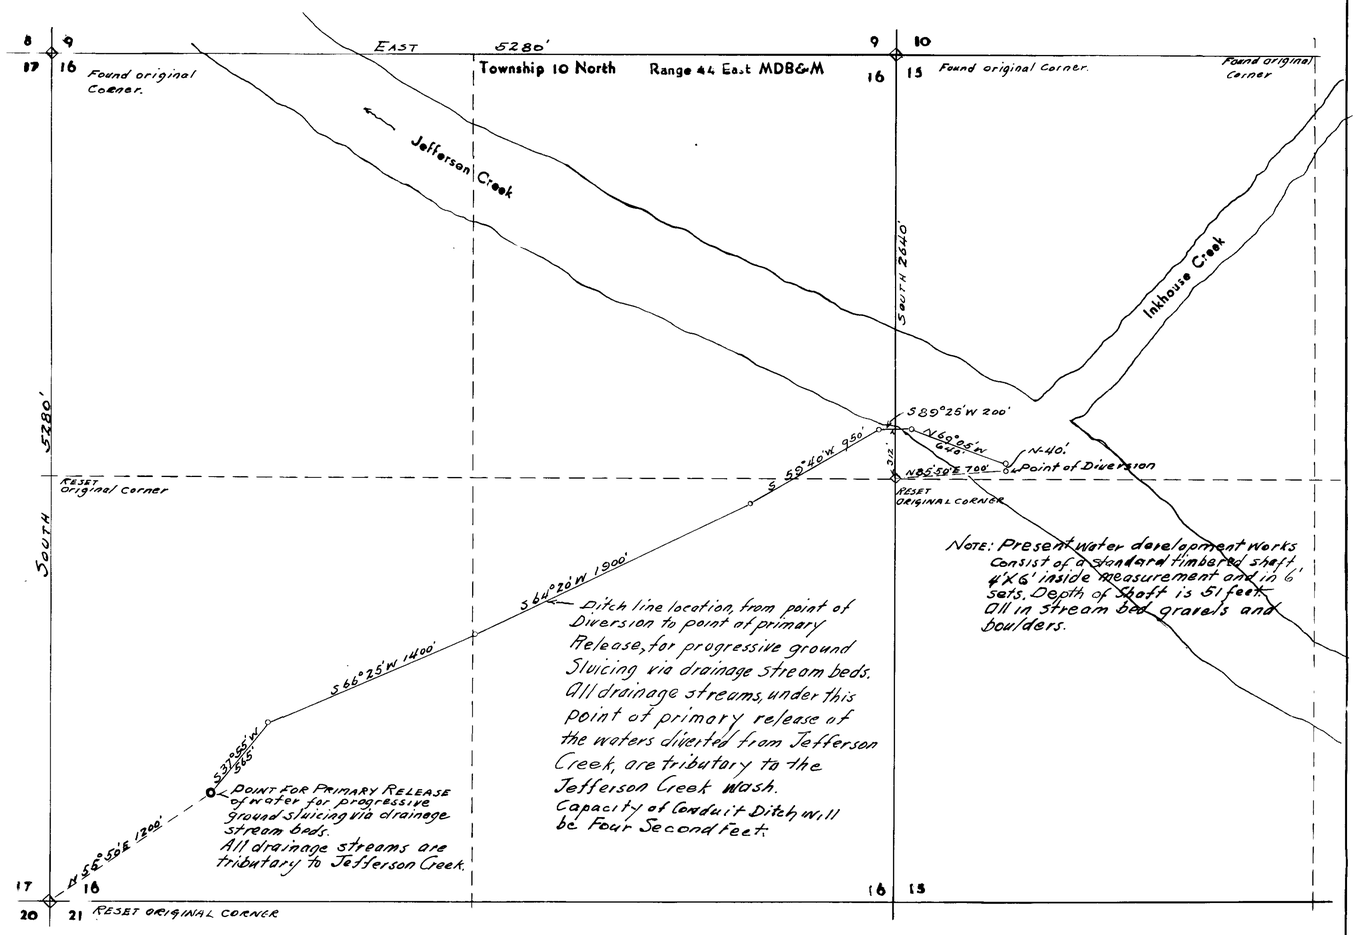
Map showing the Placer Mining Lands of Frederick Steigmeyer, in the Round Mountain Mining District, Nye County, Nevada.
On this map is shown the natural drainage return of Ground-Sluicing Waters to the water course of Jefferson Creek.



STATE of NEVADA }
COUNTY of LYON } ss.

I, J.W.E. Taylor, being first duly sworn, depose and say that this map has been carefully drawn to the designated scale from field notes of a survey made by me between February 10th, and February 14th, 1941; that it truly and correctly represents the location of the proposed point of diversion, and general points of return and the location of the point of release of said waters to useful effect in ground sluicing the mapped placer mining lands; the approximate location and capacity of the conduit ditch for conveying said waters from point of diversion to point of primary release of said waters to useful effect in mining.

J.W.E. Taylor
State Water Right Surveyor No. 166

Subscribed and sworn to before me, this 15th day of February 1941.

C.E. Orrick

February 15, 1941
