Name of applicant: NEVADA POWER COMPANY

Source: UNDERGROUND

Basin: LAS VEGAS VALLEY

Manner of Use: ENVIRONMENTAL

Period of Use: January 1st to December 31st

Priority Date: 11/08/2006

****

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This environmental permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of this measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times.

This environmental permit is issued pursuant to the provisions of NRS 533.4375. Well drillers' reports for any well(s) drilled under this permit shall be filed within 30 days from the completion of the well. Within 30 days after the completion of the project, the permittee shall notify the State Engineer of such completion and all wells shall be plugged and abandoned in accordance with Chapter 534 of the Nevada Administrative Code.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This environmental permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Environmental Permits 67705E, 67877E, 75038E and 75039E shall not exceed 31.28 acre feet annually.

The issuance of this environmental permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use is as described under items 5 and 7 respectively on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.026 cubic feet per second, but not to exceed 18.82 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **August 7, 2008**

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 7th day of **August**, A.D. **2007**

State Engineer

Completion of work filed _____

lt

AMENDED **NO. 75038-E**

ENVIRONMENTAL

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office NOV 8 2006

Returned to applicant for correction NOV 20 2006

Corrected application filed JAN 16 2007

Map filed JAN 18 2007

****

The applicant **Nevada Power Company**, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated.

****

1. The source of the proposed appropriation is **Underground**

2. The amount of water applied for is **0.026 cfs** second-feet

   (a) If stored in reservoir give number of acre-feet

3. The water to be used for **environmental.purposes (contaminant removal from ground water)**

4. If use is for:

   (a) Irrigation, state number of acres to be irrigated

   (b) Stockwater, state number and kinds of animals to be watered

   (c) Other use (describe fully under No. 12. "Remarks")

   (d) Power:
      (1) Horsepower developed

      (2) Point of return of water to stream

5. The water is to be diverted from its source at the following point **NE¼ SE¼ Section 28, T.21S, R.62E, MDM at Well-B16 from which the SE corner of said Section 28 bears S. 11° 25' 12" E. a distance of 1621.9 feet, at well B-3R from which said SE corner bears S. 36° 05' 20" E. a distance of 2227.8 feet, at well B-17 from which said SE corner bears S.37° 19' 10" E. a distance of 2030.9 feet, and at well B-24 from which said SE corner bears S. 10° 05'27" E. a distance of 1753.0 feet.**

6. Place of Use **Section 28, T. 21S., R.62E., MDB&M a portion of the S½ SE¼ and a portion of the N½ SE¼**

7. Use will begin about **January 1** and end about **December 31** of each year.

8. Description of proposed works **Drilled two additional wells, 4 inch diameter factory slotted. schedule 40 PVC well screen to a depth of approximately 25 feet, pneumatic pumps**

9. Estimated cost of works **$6,000**

10. Estimated time required to construct works **Existing**

11. Estimated time required to complete the application of water to beneficial use **Existing**

12. Remarks: **Remediation to be done under Administrative Order from the NDEP Bureau of Corrective Actions (copy submitted with original application 67705-E). Water is to be discharged to existing evaporation ponds at Clark Station.**
