I, Leo A. Snow, being first duly sworn depose and say that this map consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on June 15, 1943; that it truly and correctly represents the location and extent of the proposed works used to divert water from Hen Spring in Clark County, Nevada, by Max Hafen, John Jensen and Leo Hardy for stock watering purposes.

That the point of issuance of said spring and the point of diversion, the location and size of diverting channel, the place and manner of use, and the location of other works and stream crossed or connected with said works, are fully and correctly designated thereon.
