I, L. B. Spencer, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from the field notes of a survey made by me on the 25th day of April, 1945; that it truly and correctly represents the location and extent of the proposed works used to divert water from Water Hole Spring in Esmeralda County by E. L. Cord for stockwatering purposes. That the proposed Point of Diversion, the approximate location and size of diversion works, the place and manner of use, and by Key Map its relation to Circle L Ranch of which it is a part, and the location of all other works or streams are fully and correctly shown hereon.
