APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 64848 is issued subject to the terms and conditions imposed in said Permit 64848 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the Proof of Completion of Work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

The permittee shall keep monthly records of the amount of water pumped from this well and the records must be submitted to the State Engineer on an annual basis within 30 days after the end of each calendar year.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permit 52925, Certificate 15335; Permit 57430, Certificate 15654; Permit 49096, Certificate 15748; Permits 64848 and 78029, having commingled places of use, shall not exceed 1800.0 acre-feet annually.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.

(Continued on Page 2)

This permit is issued for the irrigation of 25.0 acres within the described place of use, further indentified by the White Pine County Assessor as APN 009-280-04 (40.0 acres).

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.45 cubic feet per second or 75.0 acre-feet annually, and shall not exceed 3.0 acre-feet from any and all sources.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:	**August 9 2011**
Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:	**August 9 2013**
Map in support of proof of beneficial use shall be filed on or before:	**August 9 2013**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 9th day of **August**, A.D. **2010**
