This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 63408 is issued subject to the terms and conditions imposed in said Permit 63408 and with the understanding that no other rights on the source will be affected by the change proposed herein. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

If any water under this permit is cancelled or any water is not put to beneficial use, it will revert to the groundwater source and not back to the base water right.
