I, Charles G. Walker, being first duly sworn, depose and say that this map, has been correctly drawn to the designated scale from field notes of a survey made by me between Nov. 5th to the 11th day of November 1948, using amended courses of survey under application No. 6564 which checked, but as to azimuth course and measurement of Sec. 11; all courses being taken to a magnetic variation 3° too great and standard 80 and 40 chain measurements having been assumed, that it truly and correctly the proposed location and extent of the works used to divert water from Bradford Springs No's 1, 2, 3 and 4, in Nye County, by Homer A. Rue, for Domestic and Irrigation purposes. That the proposed points of diversion, the approximate location and size of diverting channels, all basins or ponds, the location and names of all other works, and the boundary of all lands, showing by 40 acre subdivisions the areas proposed to be irrigated, are fully and correctly designated thereon.

The E. 1/4 Cor. Sec. 11, is a point near the center of lane 30 ft. in width, in line with a line fence from the East 1/4 Cor. Sec. 12 to the East 1/4 Cor. Sec. 11; where it originally set.

Charles G. Walker
