I, William J. Johnstone, being first duly sworn depose and say that this map consisting of five sheets has been correctly drawn to the designated scale from field notes of a survey made by me on April 8th to April 11 and July 25 to July 30, 1950, that it truly represents the proposed and existing location and extent of the works used to divert water from an underground source and a natural spring (SULPHIDE WELL and Antelope Spring) in Nye County by JOHN J. CASEY for stockwatering purposes, that the point of diversion, the place and manner of use are fully designated hereon.

William J. Johnstone

Subscribed and sworn to before me this 25th day of August, 1950.
