Permit No. 81855T

TEMPORARY

THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee:	**MICA FARMS, LLC**
Source:	**UNDERGROUND**
Basin:	**MASON VALLEY**
Manner of Use:	**IRRIGATION AND DOMESTIC**
Period of Use:	**ONE YEAR FROM DATE OF ISSUANCE**
Priority Date:	**05/14/1976**

****

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and place of use of a portion of the waters of an underground source as heretofore granted under Permit 56595, Certificate 14203, is issued subject to the terms and conditions imposed in said Permit 56595, Certificate 14203, and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 76603, 76811, 76812, 81854T and 81855T shall not exceed 502.67 acre-feet annually for the irrigation of 125.70 acres.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire 1 year after the approval of the permit at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The total combined duty of water under Permit 81855T and any water from the Walker River Decree C-125 and any storage water appurtenant to the place of use shall not exceed 48.187 acre-feet per annually for the irrigation of 12.07 acres within the described place of use.

(Continued on Page 2)

This temporary permit for underground water is issued as a supplemental water supply to land that has surface water. The underground water is to be used to the extent that surface water is not available. The permit holder is responsible for insuring delivery of the surface water from entitled decreed, flood and storage rights that these permits supplement. In any year that the Federal Water Master and the Walker River Irrigation District declare a full allocation of decreed and decree supplemental storage water to the priority years of C-125 claims that this permit supplements, underground water under this permit shall not be pumped. Additionally, underground water under this permit shall only be pumped from the well described in this permit to supplement the total allocation of Walker River Irrigation District's "newlands" storage water.

This temporary permit for underground water is issued as a supplemental water supply to that land that has surface water rights from the Walker River from Claim Number 162 (Wilson, J.I., p. 46) of the Walker River Decree C-125, Permit 25017, Certificate 8860, and from storage water provided by the Walker River Irrigation District. Irrigation shall not exceed a duty of four (4) acre-feet per acre per season from the total of decreed, storage, flood and underground waters.

The permitting of Temporary Permits 81849T, 81850T, 81851T, 81852T, 81853T and 81855T reduces the total combined duty of Permits 56594, 56595, 56596, 56597, 56598 and 56599 to 948.00 acre-feet annually for the irrigation of 237.00 acres.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.215 cubic feet per second or 48.187 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:	**N/A**
Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:	**N/A**
Map in support of proof of beneficial use shall be filed on or before:	**N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 26th day of **July, 2012**

P.E.

State Engineer

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office MAY 0 2 2012

Returned to applicant for correction _____

Corrected application filed _____ Map filed MAR 14 2008 under 76603

The applicant Mica Farms, LLC, c/o Mike Faretto

291 Osborn Lane (Street Address or PO Box) of Yerington (City or Town)

Nevada 89447 (State and ZIP Code) hereby make(s) application for permission to change the

☑ Point of diversion ☑ Place of use ☐ Manner of use ☑ of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit No. 56595 (Cert. 14203)

---

1. The source of water is Underground
   Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 48.187 acre feet / pro-rata share of the diversion rate
   Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Irrigation & Domestic
   Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for Irrigation & Domestic
   If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)
   within the NE1/4SE1/4 Section 21, T12N, R25E, MDB&M or at a point from which the SE corner of said Section 21 bears S. 31°23'40"E, a distance of 1,657.14 feet. (Refer to map filed under Permit No. 76603)

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)
   NW1/4 NW1/4, Section 24, T12N, R25E, MDM, or at a point from which the N1/4 corner of said Section 24 bears N 62° 26' E., a distance of 2,663.0 feet. Refer to Map filed under Permit No.56594.

108-LY

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

A portion of the following SE1/4 of Section 21, W1/2SW1/4 of Section 22, W1/2NW1/4 of Section 27 and the NE1/4 of Section 28, all within T12N, R25E, MDB&M.(Lyon County APN 12-332-05 & 07)

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

Refer to Attached Exhibit "A" (Map Filed under Permit No. 56594)

9. Proposed use will be from January 1 (Month and Day) to December 31 (Month and Day) of each year.

10. Existing use permitted from January 1 (Month and Day) to December 31 (Month and Day) of each year.

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing Well and pipeline.

12. Estimated cost of works None - Existing

13. Estimated time required to construct works Existing
If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 1 year

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)
