
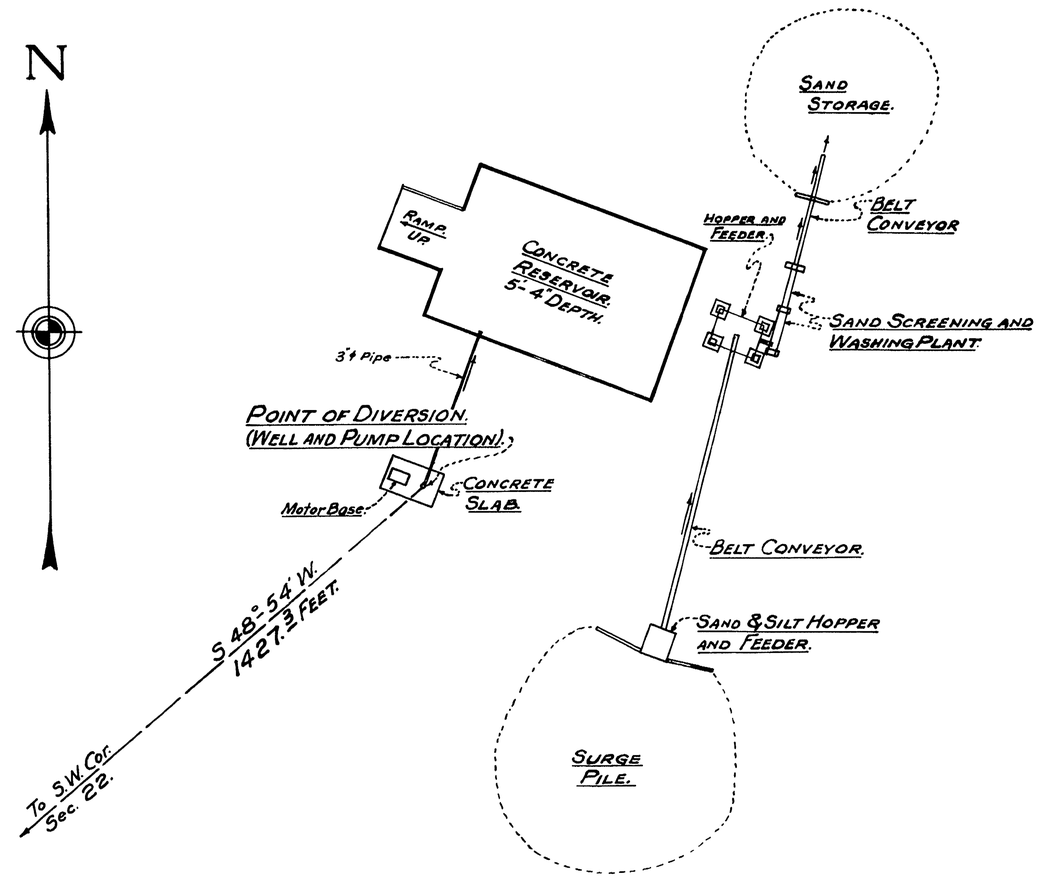
SECTION 22, T.21S., R.60E., M.D.B.&M.

500 0 500 1,000 1,500 2,000 2,500 3,000.

SCALE IN FEET.
(One Inch = 400 Feet).



LOCATION OF WORKS.
(Scale: One Inch = 20 Feet.)

BASIS OF BEARINGS.

The west boundary line of Section 22 was checked by compass and based on a magnetic variation of 15½° E (from U.S.G.L.O. Township Plat) was found to bear N. 3°00 W. and as such was used as the basis of bearings for this survey.

The U.S.C.&G.S. Triangulation diagram confirms the fact that the N.-S. boundary lines bear to the NW (or SE) in this area.

GENERAL NOTES.

1. Portable gasoline motor-driven pumps will be used to pump water from the reservoir to the washing plant. The connecting pipes, hoses, etc. are portable in nature and are not shown hereon.
2. The location of the tailings and settling pond for reclaiming water will be determined later.
3. The primary crushing and screening plant is a movable (portable) unit and its location is not indicated hereon.

STATE OF NEVADA, } SS.
County of Clark

I, Ernest H. Clary, being first duly sworn, depose and say that this map consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me between the 22nd day of April and the 18th day of July, 1953; that it truly and correctly represents the location and extent of the works used to divert water from an underground source (Las Vegas Artesian Basin), in Clark County, by Young & Smith, for industrial (washing sand and gravel) and domestic purposes. That all other works or streams which are crossed by, or connected with, said works are correctly shown and designated hereon.

Ernest H. Clary
State Water Right Surveyor.

Subscribed and sworn to before me this 20th day of July, 1953.

Lois Craig
Notary Public in and for Clark County, Nevada.

My commission expires February 27, 1956.
