THE STATE OF NEVADA

PERMIT TO CHANGE THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

Name of Permittee:	**MICA FARMS, LLC**
Source:	**UNDERGROUND**
Basin:	**MASON VALLEY**
Manner of Use:	**IRRIGATION AND DOMESTIC**
Period of Use:	**JANUARY 1ST THROUGH DECEMBER 31ST**
Priority Date:	**04/25/1960**

****

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 58486, Certificate 14969, is issued subject to the terms and conditions imposed in said Permit 58486, Certificate 14969, and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Permits 82675 through 82683 and any water from the Walker River Decree and any storage water appurtenant to the place of use shall not exceed 793.48 acre-feet per annually for the irrigation of 198.37 acres within the described place of use. This permit for underground water is issued as a supplemental water supply to land that has surface water rights and shall not exceed a duty of 4.0 acre-feet per acre applied to the lands being irrigated from the total of decreed, storage, flood and underground waters.

The total combined duty of water from this well under Permits 82681, 82682 and 82683 shall not exceed 374.48 acre-feet.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

(Continued on Page 2)

This permit, for water from an underground source, is issued as a supplemental water supply to lands that have surface water rights from the Walker River as set forth in Claim Numbers 45, 63, 84, 101, 106, 108, and 164 of the Walker River Decree C-125, or from storage water provided from the Walker River Irrigation District. During times that underground water is utilized to supplement surface water, the total amount of water applied to the lands for irrigation from all sources shall not exceed the duty of 4.0 acre-feet per acre for this place of use. Water from this permit shall not be pumped except to the extent necessary to make up the unavailable portion of the entitled duty from decree and storage water in any given year. The permit holder is responsible for ensuring delivery of the surface water from entitled decreed, flood and storage rights that this permit supplements. In any year that the Federal Water Master and the Walker River Irrigation District declare a full allocation of decreed and decree supplemental storage water to the priority years of these C-125 claims that this permit supplements, underground water under this permit shall not be pumped.

The point of diversion and place of use are as described on the submitted application to support this permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.409 cubic feet per second or 54.48 acre-feet annually**.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **July 29 2014**

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: **July 29 2018**

Map in support of proof of beneficial use shall be filed on or before: **July 29 2018**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29th day of **July, 2013**

J. K. P.E.

State Engineer

Application No. 82681

APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF NEVADA HERETOFORE APPROPRIATED

THIS SPACE FOR OFFICE USE ONLY

Date of filing in State Engineer's Office MAR 2 9 2013

Returned to applicant for correction APR 0 5 2013

Corrected application filed APR 1 8 2013 Map filed APR 16 2013 under 82675

The applicant Mica Farms, LLC, c/o Mike Faretto

291 Osborne Lane of Yerington

Street Address or PO Box City or Town

Nevada 89447 hereby make(s) application for permission to change the

State and ZIP Code

☑ Point of diversion ☑ Place of use ☐ Manner of use ☐ of a portion

of water heretofore appropriated under (Identify existing rights by Permit, Certificate, Proof or Claim Nos. If Decreed, give title of Decree and identify right in Decree.)

Permit No. 58486 (Cert. 14969)

---

1. The source of water is Underground

Name of stream, lake, underground, spring or other sources.

2. The amount of water to be changed 54.48 acre feet / ~~pro rata share~~ All KWC 4/15/13 of the diversion rate 0.409 cfs MB

Second feet, acre-feet. One second foot equals 448.83 gallons per minute.

3. The water to be used for Irrigation & Domestic

Irrigation, power, mining, commercial, etc. If for stock, state number and kind of animals. Must limit to one major use

4. The water heretofore used for Irrigation & Domestic

If for stock, state number and kind of animals.

5. The water is to be diverted at the following point (Describe as being within a 40-acre subdivision of public survey and by course and distance to a found section corner. If on unsurveyed land, it should be stated.)

within the SW1/4SW1/4 Section 11, T12N, R25E, MDB&M or at a point from which the SW corner of said Section 11 bears S 87°27'11" W, a distance of 760.05 feet.

6. The existing point of diversion is located within (If point of diversion is not changed, do not answer.)

~~SW1/4 NW1/4, Section 24, T12N, R25E, MDB&M, or at a point from which the W1/4 corner of said Section 24 bears S 31° 57'08" W~~, a distance of 719.96 feet. Refer to Map filed under Permit No. 58486.

S31° 57'08"W

MB

mason Valley 9-108 1 yon

7. Proposed place of use (Describe by legal subdivisions. If for irrigation, state number of acres to be irrigated.)

Refer to Attached Exhibit "A"

8. Existing place of use (Describe by legal subdivisions. If changing place of use and/or manner of use of irrigation permit, describe acreage to be removed from irrigation.)

13.62 acres within SW1/4NW1/4 Section 24, T12N, R25E, MDB&M.

9. Proposed use will be from January 1 (Month and Day) to December 31 (Month and Day) of each year.

10. Existing use permitted from January 1 (Month and Day) to December 31 (Month and Day) of each year.

11. Description of proposed works. (Under the provision of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e., diversion structure, ditches, pipes and flumes or drilled well, pump and motor, etc.)

Existing well , pump and distribution system.

12. Estimated cost of works existing

13. Estimated time required to construct works existing

If well completed, describe well.

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This application is being filed with the understanding that the duty shall not exceed 4.0 AFA from all sources.
