I, C.A. Liddell, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from the field notes of a survey made by me April 14, 1954, that it truly and correctly represents the proposed location and extent of the works used to divert the water from the well in the County of Nye by FRANK JOHN MAXWELL for irrigation and domestic purposes. That the proposed point of diversion, the well, the approximate location of the diverting channel, and the boundary of the land, showing by 40 acre subdivisions, the area proposed to be irrigated are fully and correctly designated thereon.

There are at present no works of any kind on the property and none can be designed until the quantity of water developed by the well is determined.

C.A. Liddell
State Water Rights Surveyor

Subscribed and sworn to before me this 16th day of April, 1954.
