I, Robert W. Millard, being first duly sworn, depose and say that this map has been correctly drawn to the designated scale from field notes of a survey made by me between the 12th day of August, and the 14th day of August, 1954; that it truly and correctly represents the location and extent of the proposed works used to divert water from MIKE SPRINGS, in White Pine County, by TUNGSTEN MINERALS INC., for mining, milling, and domestic purposes. That the proposed point of diversion and return, the location of the mine and mill, the approximate size and capacity of the diverting channel, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated thereon.
