APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, to change the point of diversion, place and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 17306, Certificate 5738, is issued subject to the terms and conditions imposed in said Permit 17306, Certificate 5738, and with the understanding that no other rights on the source will be affected by the change proposed herein. This well shall be equipped with a two (2) inch opening for measuring depth to water. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.19 cubic feet per second or 2.04 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **January** 29 **2016**

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: **January** 29 **2018**

Map in support of proof of beneficial use shall be filed on or before: **N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 29th day of **January, 2015**

14. Estimated time required to complete the application of water to beneficial use 5 years

15. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

This water is to be used for commercial landscape irrigation of the cemetery. In 1979, 2.00 afa was changed from Permit #17306 to Permit #38152. As the cemetery has grown &landscaping has matured, more water is required causing Permit #38152 to be over-pumped in 2012 & 2013. The use under Permit #17306 has been reduced due to water availability from nearby public water system, so the reduction of 2.037 afa will not affect the user of #17306. The units under Permit #17306, C5738 are now served by Silver Springs MWC, but the well is still utilized by the Lyon County Road Dept. With this change, we will be in compliance with DWR violation.

16. Miscellaneous remarks:

Attached is copy of violation letter from DWR dated 11/20/2013.
