Permit No. 84828

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee:	**LOVELOCK MEADOWS WATER DISTRICT**
Source:	**UNDERGROUND (WELL NO 8)**
Basin:	**LOVELOCK VALLEY-OREANA SUBAREA**
Manner of Use:	**MUNICIPAL**
Period of Use:	**JANUARY 1ST THROUGH DECEMBER 31ST**
Priority Date:	**02/10/2015**

****

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit, for diversion rate only, is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

The total combined duty of water under Permit 37987, Certificate 10382; Permit 37989, Certificate 10383; Permit 37990, Certificate 10384; Permit 37991, Certificate 10385; Permit 37992, Certificate 10386; Permit 39712, Certificate 10387; Permit 39713, Certificate 10388; Permit 39714, Certificate 10389; Permits 45577, 45578, 60215, 77715 and 84828 shall not exceed 3,099.78 acre-feet annually.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

Permit No. 84828

This permit is issued for diversion rate only. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 2.0 cubic feet per second or 1,447.93 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **Filed Under 77715 on November 28, 2011**

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: **June 21 2026**

Map in support of proof of beneficial use shall be filed on or before: **N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 21st day of **June, 2016**

State Engineer

84828

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

SE 1/4 of the NW 1/4 Sec. 33, T29N, R33E, M.D.B.&M., or at a point from which the ~~SW~~ SE Section corner of said Section 33 bears S51° 43' 23" E, a distance of 4,617.56 ft. Refer to map filed in support of Permit No. 77715.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

The Lovelock Meadows Water District service area. See Attachment "A." Refer to map filed in support of Permit No. 59252.

7. Use will begin about January 1 (Month and Day) and end about December 31 (Month and Day) of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

Existing production well equipped with a pump, motor, totalizing meter, and pipeline to water distribution system.

9. Estimated cost of works: None - Existing Works

10. Estimated time required to construct works: None - Existing Works
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: Ten (10) Years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

Water under this application will be utilized to supplemental existing productions wells and allow for greater system flexibility for the operator. This application proposes additional diversion rate to Well No. 8 to allow for increased water demand during peak times of the season. Water under this application will not exceed 1,447.93 acre feet annually.

13. Miscellaneous remarks:

This application is being filed for diversion rate only; no additional volume of water is being requested. Permit Nos. 37987, Cert. 10383, 37898, Cert. 10382, 37990, Cert. 10384, 37991, Cert. 10385, 37992, Cert. 10386, 39712, Cert. 10387, 39713, Cert. 10388, 39714, Cert. 10389, 45577, 45578, 60215, and 77715 shall not exceed a total combined duty of 3,100 acre-feet annually.
