ORDER NO. _____

Map filed.....

APR 13 1967

DATE 8.3.09

The applicant Dieleman Industries
(6107 South Industrial Road)
of Las Vegas, County of Clark

State of Nevada, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.) Jake W. and Ruth O. Dieleman (husband and wife).

1. The source of the proposed appropriation is underground (Las Vegas Artesian Basin).
Name of stream, lake or other source.

2. The amount of water applied for is 0.02 second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet..... acre-feet

3. The water to be used for Industrial (Crane & Rigging Yard) and domestic.
Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated).....

(b) Stockwater (state number and kinds of animals to be watered).....

(c) Other use (describe fully under "No. 11. Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point: in the NE¹/₄SW¹/₄ of Section 32, T. 21 S., R. 61 E., M.D.B. & M. at a point from which the West one quarter section corner of said Section 32 bears North 85 degrees - it should be stated. 35 minutes - 29" W a distance of 2063.0 feet.

6. Place of use NE¹/₄ SW¹/₄ Section 32, T. 21 S., R. 61 E., M.D.B. & M.
Describe by legal subdivision, if on unsurveyed land it should be so stated.

7. Use will begin about January 1 and end about December 31, of each year.
Month Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) A 5 H.P. pump and electric motor and 1,000 gallon storage tank along with around 500 feet of 1 1/2" diam. and 200 feet of 3/4" diam. copper pipe are already in place.
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

- 9. Estimated cost of works. \$1,500 to \$2,500.
- 10. Estimated time required to construct works. None (already constructed).
- 11. Remarks. In due time some of the yard north of the railroad as well as the yard south of the railroad will be leased or placed in various use and as a result it is not presently predictable as to what other purpose the water may be put to use. In time some trees and shrubs may also be planted and watered. Other present uses such as washing, steam cleaning, servicing, etc. are included.

Applicant Dieleman Industries.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. It is understood that the amount of water herein granted is only a temporary allowance and that the final water obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. A meter must be installed in the discharge pipe line near the point of diversion, and accurate measurements must be kept of water placed to beneficial use. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening and an air line for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore, the State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.02 cubic feet per second, but not to exceed 1.1 mc annually.

Actual construction work shall begin on or before April 16, 1968
 Proof of commencement of work shall be filed before May 16, 1968
 Work must be prosecuted with reasonable diligence and be completed on or before April 16, 1969
 Proof of completion of work shall be filed before May 16, 1969
 Application of water to beneficial use shall be made on or before April 16, 1970
 Proof of the application of water to beneficial use shall be filed on or before May 16, 1970
 Map in support of proof of beneficial use shall be filed on or before _____

Commencement of work filed MAR 26 1968
 Completion of work filed MAR 26 1968
 Proof of beneficial use filed MAY 25 1970
