APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water granted herein at any and all times.

The place of use is limited to Lyon County Assessor's Parcel Number 017-373-08.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

Permit No. 85654

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **and not to exceed 0.01 cubic feet per second or 1.52 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **September** 30 **2017**

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: **September** 30 **2018**

Map in support of proof of beneficial use shall be filed on or before: **N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 30th day of **September, 2016**

5. The water is to be diverted from its source at the following point: (Describe as being within a 40-acre subdivision of public survey, and by course and distance to a found section corner. If on unsurveyed land, it should be so stated.)

Within the NW1/4 NW 1/4 of section 21, T.17N., R.25E., M.D.B.&M., or at a point from which the NW corner of said section 21 bears N.11deg24'36"W., a distance of 1,310.9 feet.

6. Place of use: (Describe by legal subdivision. If on unsurveyed land, it should be so stated)

A portion of the NW1/4 NW1/4 of section 21, T.17N., R.25E., M.D.B.&M. [Lyon County APN 017-373-08; 4.48 acres]. [See accompanying map].

7. Use will begin about January 01 (Month and Day) and end about December 31 (Month and Day) of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) (State manner in which water is to be diverted, i.e. diversion structure, ditches and flumes, drilled well with a pump and motor, etc.)

I hope to use my existing domestic well to water the livestock and run my "feed sprouting system" to reduce my feed bill and increase the health and marketability of my livestock.

9. Estimated cost of works: $1,000

10. Estimated time required to construct works: 1 year (existing well)
(If the well is complete, describe works.)

11. Estimated time required to complete the application of water to beneficial use: 2 years

12. Provide a detailed description of the proposed project and its water usage (use attachments if necessary): (Failure to provide a detailed description may cause a delay in processing.)

I would like to continue living in my domestic residence and increase the size of my farm to a total of 5 cows, 3 horses, 150 pigs, 50 sheep, 5 goats, 100 rabbits and 100 chickens and to be able to legally sell my livestock.
I also purchased an enclosed "feed sprouting system" I would like to put into production. It waters barley for sprouting before it's fed to the animals. Any extra water is diverted for collection for reuse or to be used for the animals / garden.

WATER RIGHTS APPLICATION COVER LETTER

85654

I am not requesting any ADDITIONAL water rights. Currently, I have a domestic well that I'm using for my residence and farm animals that is entitled to 2 acre-feet of domestic water. I'm asking to be able to use my current domestic well to water my farm so that I can legally sell the vegetables and animals that I am raising.

I thought that I could raise livestock under my domestic well like all the neighbors around me do. As my farm increased in size, I began selling pork and making plans to expand. I didn't realize it was illegal since I don't have commercial water rights. I have put a LOT of time, work and money into my farm, but I want to make sure that I'm following all the proper laws. PLEASE have mercy upon me and grant me water so that I may continue my farm!

Thank you for your time,

Mike Coughlin
