Permit No. 85693

THE STATE OF NEVADA

PERMIT TO APPROPRIATE WATER

Name of Permittee:	**RICH GRANT & SONS RANCHING COMPANY, LLC**
Source:	**UNDERGROUND**
Basin:	**NORTH FORK AREA**
Manner of Use:	**STOCKWATERING**
Period of Use:	**JANUARY 1ST THROUGH DECEMBER 31ST**
Priority Date:	**11/23/2015**

****

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins or before the proof of completion of work is filed. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

Monthly records shall be kept of the amount of water pumped from this well and the records submitted to the State Engineer on a quarterly basis within 15 days after the end of each calendar quarter.

This stockwater permit is not exempt from State Engineer's meter order No. 1251.

The well must be sealed from ground level to 100 feet in accordance with NAC 534.380.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The point of diversion and place of use are as described on the submitted application to support this permit.

(Continued on Page 2)

Permit No. 85693

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, **not to exceed 0.0094 cubic feet per second and 2.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before: **June 3 2017**

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before: **June 3 2019**

Map in support of proof of beneficial use shall be filed on or before: **N/A**

IN TESTIMONY WHEREOF, I, JASON KING, P.E.,

State Engineer of Nevada, have hereunto set my hand and the seal of my office, this 3rd day of **June, 2016**

State Engineer
