Tp. 28 N. R. 63 E.

DISTANCE FROM 1 MM. TO TIE CORNER, 6 MILES 5470 FEET.

Surveyors Notes

The lands above surveyed are so situated that conflict is impossible for the reason that the boundary lines of the subdivisions surveyed inclose every foot of land available for agricultural purposes, being boxed in on both north and south sides by abrupt mountain spurs. From the spring, or marsh, shown one mile westward from the lands appropriated the canyon is rockey, furnishing space for a wagon road only. The high mountain range beyond this point (the spring) is available for grazing purposes only after the winter snows have disappeared.

The measured line from the N-W Corner of Section 27, Township 28, N. Range 64 East, (the townsite of Currie) as indicated hereon, corresponds with a survey made, years ago, by Charles C Prebel, late Surveyor General of the State of Nevada.

State of Nevada,
County of Elko } ss.

I, George A. Henry, being first duly sworn, deposes and says, that the above map is a true and accurate plat of the lands irrigated by Charles F. Phalan, as taken from the field notes of a survey made by me, completed on the 8th day of April, 1912.

That the map and survey were made at the instance of Charles F. Phalan, owner of said lands and that it truly represents the irrigated lands of said Charles F. Phalan.

George A. Henry
Surveyor.

Subscribed and sworn to before me, this 8th day of April 1912.

John P. Phalan Mgr. this Jan 26th 1915

Notary Public in and for Elko County, Nevada.
