Note by the Surveyor
The so called old Ditch is taken out of Dry Creek in Sec 2 Town. 32 N.R. 57 E. as it is not really a ditch made by hand it is taken of the Creek by a Cut which at present Oct 9th 1911 is 6 ft wide at top 3 ft in bottom and 3 ft deep and is run into a depression which runs in a N.W. direction down the hill following the sinuous course of the depression which for the first 3000 ft has a fall of 150 ft. for the second 3000 ft a fall of 150. and the balance of the way to the junction of the new Ditch 100 ft fall in all 400 ft. Dry Creek goes dry in July necessitating getting water from another source the balance of the season.
