APPROVAL..... OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water here-in granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. No perforations are to be placed in the casing until after the well is completed and the log available for study. The perforations shall not be placed within 100 feet of the surface unless the log shows satisfactory confining layer nearer the surface. Measuring devices shall be installed to assure that water diverted under this permit maintains ponds and that said ponds in no way interfere with the flow of the Swamp Ditch.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed..... 0.50..... cubic feet per second.....

Actual construction work shall begin on or before..... December 18, 1969

Proof of commencement of work shall be filed before..... January 18, 1970.

Work must be prosecuted with reasonable diligence and be completed on or before..... December 18, 1970

Proof of completion of work shall be filed before..... January 18, 1971.

Application of water to beneficial use shall be made on or before..... December 18, 1973

Proof of the application of water to beneficial use shall be filed on or before..... January 18, 1974

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed..... JAN 29 1971
 Completion of work filed..... JAN 29 1971
 Proof of beneficial use filed.....
 Cultural map filed.....
