
SECTION 27, T21S, R61E MDB&M

State of Nevada }
County of Clark } SS:

I, F. M. Eaton, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me between 1st day of April and the 4th day of April, 1962; that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source in Clark County, by John F. Robinson for Commercial Purposes - to supply water to apartments he intends to build. The point of diversion is correctly designated. Water will be carried in pipes to the various units. Irrigation will be confined to lawn sprinkling, less than two acres altogether. The land is undisturbed desert soil with no evidence of reservoirs, basins, or other works that might cross or connect with the proposed works.

Subscribed and sworn to this 23rd day of April, 1962.
