APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the

following limitations and conditions: This permit to change the point of diversion and the place of use of the waters of an underground source as heretofore granted under Permit 11251, Certificate 3948, is issued subject to the terms and conditions imposed in said Permit 11251 and with the understanding that no other rights on the source will be affected by the change proposed herein. A meter must be installed in the discharge pipe line, near the point of diversion and accurate measurements must be kept of water placed to beneficial use. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore, the State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.22 cubic feet per second

Actual construction work shall begin on or before January 16, 1970

Proof of commencement of work shall be filed before February 16, 1970

Work must be prosecuted with reasonable diligence and be completed on or before January 16, 1970

Proof of completion of work shall be filed before February 16, 1970

Application of water to beneficial use shall be made on or before January 16, 1971

Proof of the application of water to beneficial use shall be filed on or before February 16, 1971

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed MAR 9 1970

Completion of work filed MAR 9 1970

Proof of beneficial use filed June 9, 1971
