APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the

following limitations and conditions: This permit to change the point of diversion and place of use of the waters of an underground source as heretofore granted under Permit 22855 is issued subject to the terms and conditions imposed in said Permit 22855 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a parshall flume. The location of the latter to be approved by the State Engineer. If well is flowing a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.333 cubic feet per second, but not to exceed a

yearly duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before December 9, 1972

Proof of commencement of work shall be filed before January 9, 1973

Work must be prosecuted with reasonable diligence and be completed on or before December 9, 1973

Proof of completion of work shall be filed before January 9, 1974

Application of water to beneficial use shall be made on or before December 9, 1974

Proof of the application of water to beneficial use shall be filed on or before January 9, 1975

Map in support of proof of beneficial use shall be filed on or before January 9, 1975

Commencement of work filed JAN 16 1973
Completion of work filed
Proof of beneficial use filed
Cultural map filed
Certificate No. Issued
