I, G.F. Engle, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the fifth day of August 1925, and that it truly and correctly represents the location and extent of the works used to divert water from Sage Hen Spring in Churchill Co. by Myrtle & Louis H. Dangberg for stockwatering; that the point of diversion, the location and size of the diverting channel or other conduit, the place and manner of use, and the location and names of all other works or streams which are crossed by or connected with the said works, are fully and correctly designated thereon.
