I, Richard W. Forman, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 9th day of July, 1976; that it truly and correctly represents the proposed location and extent of the works used to divert water from Watson Spring, aka Cottonwood Spring, and Underground Sources, in Elko County, by The Anaconda Company for Mining, Milling and Quasi-Municipal purposes. That the proposed point of diversion and return, the location of the place of use, the approximate size and capacity of the diverting channel, and the location and names of all other works or streams which are crossed by or connected with said works, are fully and correctly designated thereon.

Richard W. Forman
State Water Right Surveyor

Subscribed and sworn to before me this 9th day of August, 1976.
