

APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office Dec. 29, 1971

Returned to applicant for correction Jan. 20, 1972

Corrected application filed

Map filed Jan. 24, 1972

The applicant Bjarne A. & Gladys L. Pederson (with right of survivorship) of 700 Fleischman Way, Carson City County of Nevada 89701, hereby make application for permission to appropriate the public waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is an underground source. Name of stream, lake or other source.

2. The amount of water applied for is 0.10 cfs (not to exceed 1.5 mg/year second-foot. One second-foot equals 448.83 gals. per min.)

(a) If stored in reservoir give number of acre-feet acre-feet

3. The water to be used for industrial and domestic. Irrigation, power, mining, manufacturing, domestic, or other use.

4. If use is for:

(a) Irrigation (state number of acres to be irrigated)

(b) Stockwater (state number and kinds of animals to be watered)

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following points 86° 45' 56" W. a distance of 610.15 feet from the northeast corner of Section 17, T-15-N, R-20-E, M.D.B. & M., Carson City, Nevada, said point being in the NE 1/4 of the NE 1/4 of Section 17.

6. Place of use is situated in a portion of the Northeast quarter of the Northeast quarter of Section 17, T. 15N., R. 20E., M.D.B. & M., Carson City, Nevada

7. Use will begin about 1 January and end about 31 December, of each year.

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works. Water is pumped from the well directly to the place of use.

State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works 6" dia cased well, 110 feet deep, drilled 1954
 10. Estimated time required to construct works completed
 11. Estimated time required to complete the application to beneficial use
 12. Remarks Water is used in manufacturing and processing of Portland cement concrete and concrete products and domestic use in and about the plant site. Daily concrete production averages 100 cu. yds. using 50 gal. of water/yd. or 5000 gal./day. Plant domestic and clean-up use is approximately 1000 gal./day. Total usage equals 6000 gal./day. Annual usage= 6000 gpd times 250 working days, or 1.5 mg per year.

Overruled 10-17-72 APPROVAL OF STATE ENGINEER
See Ruling 1874

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The total diversion under this Permit and Permit 26454 shall not exceed 0.10 c.f.s. and a duty of 1.5 million gallons per annum from one and or both wells.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.10 cubic feet per second, but not to exceed 1.5 m.g. annually.

Actual construction work shall begin on or before January 7, 1973
 Proof of commencement of work shall be filed before February 7, 1973
 Work must be prosecuted with reasonable diligence and be completed on or before January 7, 1973
 Proof of completion of work shall be filed before February 7, 1973
 Application of water to beneficial use shall be made on or before January 7, 1974
 Proof of the application of water to beneficial use shall be filed on or before February 7, 1974
 Map in support of proof of beneficial use shall be filed on or before
