I, Richard N. Brand, being first duly sworn, depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on October 15, 1978; that it truly and correctly represents the proposed location and extent of the works used to divert water from an underground source (Las Vegas Artesian Basin) in Clark County, Nevada by Steve R. Hudson for domestic and quasi-municipal purposes. That the proposed point of diversion, the approximate location and size of the diverting pipeline, and the boundary of all lands upon which the water applied for under this application will be used are fully and correctly designated thereon.
