State of Nevada } ss.
County of Elko. }

I, Geo. A. Henry, being first duly sworn deposes and says that the above map is a true and correct plat of the lands irrigated by Philip Brady, as taken from the field notes of a survey made by me, completed on the 18th day of May, 1912. That the map and survey were made at the instance of Philip Brady, owner of said lands, and that it truly represents the irrigated lands of said Philip Brady.

Geo. A. Henry Surveyor.

Subscribed and sworn to before me this 12 day of May 1913.

[signature]
Notary Public in and for Elko County
State of Nevada.

my commission expires May 1915

Surveyor's Notes.

The lands above surveyed are so situated that interference with possible other parties is out of the question. The tillable lands are hemmed in by hills and high table lands far above any point from which it is possible to irrigate. The source of water supply must come from surplus waters from above; also, from bogs and marshy grounds scattered along the spring channel at various points upon the lands surveyed, which can be developed by opening such places with plow and scraper.

The reservoir—or dam—located on the S-W of the S-E of Sec. 32, with its two water outlets on the north and south wings, can, as seen by ditches marked, irrigate a considerable number of acres, not otherwise possible. The back water from this dam cannot damage other grounds.

Under No. 4829

TITLE.

Philip Brady
Phalan Creek.
