I, Walter G. Reid, being first duly sworn, depose and say this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made by me on the 13th day of August, 1966; that it truly and correctly represents the location and extent of the works used to divert water from an underground source for irrigation and domestic purposes under Application No. 23083. That the point of diversion, the location and size of the diverting pipe, the location and extent of the lands owned by the applicant upon which the water applied for under Application No. 23083 is used, together with the area and kind of culture in each 40-acre subdivision, and the location and names of all other works or streams which are crossed by or connected with said works are fully and correctly designated thereon.
