APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of horses served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

No perforations shall be put in the casing until after the well is completed and the log available for study. Perforations shall not start less than 100 feet from the surface unless the log shows a satisfactory confining formation nearer the surface. Log available for study. No perforations above 100 feet.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed .00125 cubic feet per second, or sufficient water to water 40 head of horses.

Actual construction work shall begin on or before February 7, 1974

Proof of commencement of work shall be filed before March 7, 1974

Work must be prosecuted with reasonable diligence and be completed on or before February 7, 1975

Proof of completion of work shall be filed before March 7, 1975

Application of water to beneficial use shall be made on or before February 7, 1976

Proof of the application of water to beneficial use shall be filed on or before March 7, 1976

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed MAR 15 1974
Completion of work filed APR 7 1975
Proof of beneficial use filed APR 7 1976
Certificate No. 8831 Issued 8-24-76
