I, Robert J. McNutt, a Registered Land Surveyor in the State of Nevada, being first duly sworn, do depose and say that this map, consisting of one sheet, has been correctly drawn to the designated scale from field notes of a survey made under my supervision on the 13th day of July, 1982; that it truly and completely represents the proposed locations and extent of works used to divert water from an underground source in Clark County, Nevada by Southern Nevada Water Corporation for quasi-municipal use.
