I, W.H. Settelmeyer, being first duly sworn, depose and say that this map, has been correctly drawn to the designated scale from field notes of a survey made by me on the 1st day of October 1936; that it truly and correctly represents the location and extent of the works used to divert water from WARM CREEK, in Elko County, by CLAYTON C. BELCHER for irrigation purposes, under application No 5497. That the point of diversion, the location, size and grades of the diverting channel, the location and extent of lands owned or controlled by the applicant upon which water applied for under application No. 5497 is used, together with the area and kind of culture in each 40 acre subdivision, and location of all other works or streams which are connected with said works are fully and correctly designated thereon.
