APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0094 cubic feet per second, or sufficient water to water 300 head of cattle.

- Actual construction work shall begin on or before September 18, 1974
- Proof of commencement of work shall be filed before October 18, 1974
- Work must be prosecuted with reasonable diligence and be completed on or before September 18, 1975
- Proof of completion of work shall be filed before October 18, 1975
- Application of water to beneficial use shall be made on or before September 18, 1976
- Proof of the application of water to beneficial use shall be filed on or before October 18, 1976
- Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed OCT 10 1974
 Completion of work filed SEP 22 1975
 Proof of beneficial use filed OCT 12 1976
